

VACANCY

LAB TECHNICIAN WITH INTEREST FOR BIOINFORMATICS

Job Description:

We are seeking an enthusiastic and driven lab technician with interest for bioinformatics. Cosmogroup is an innovative company dedicated to personal health counselling and preventive health. In this role, you will be responsible for providing high-quality laboratory analyses and generate bioinformatic reports. You will work closely with a multidisciplinary team to achieve common goals and results.

Requirements:

Education:

- A relevant bachelor degree in biotechnology, biology, bioinformatics, or a related field.
- Experience in bioinformatics and proficiency in laboratory techniques are preferred.

Skills

- Ability to work independently and as part of a team to collaborate effectively to achieve shared results.
- Proactive and able to take initiative in tasks and projects.
- Attention to detail and precision in performing lab work and data analysis.
- Willingness to embrace new projects and challenges.
- Capable of effectively and efficiently solving problems.
- Strong analytical skills to interpret data and draw conclusions.
- Good communication skills, both verbal and written, English and Dutch
- Previous experience in a laboratory setting is a plus.

Responsibilities:

- Conduct laboratory work according to Standard Operating Procedures.
- Analyse bioinformatic data and generate reports.
- Collaborate with other team members to achieve objectives.
- Maintain laboratory equipment and order supplies.
- Actively participate in team meetings.

Cosmogroup offer:

- A challenging and dynamic work environment.
- Competitive salary and benefits package.
